HOROSCOPE

(continued from page 6)

Cancer (the crab) Jun 22-Jul 22

A total eclipse of the sun could be the "sign" you have been looking for. Stay in touch with allies, and have plenty of gas in your car. May could surprise you!

Leo (the lion) Jul 23-Aug 22

Anyone you meet who is wearing a shirt with a football mascot on it is not to be trusted, so use caution! 4 and 32 are especially fortunate for you.

Virgo (the virgin) Aug 23-Sep 22

Keep tabs on neighbors this month and you MIGHT just see that little blonde sunbathing. Always have one hand free, and make sure there are no witnesses.

Libra (the scales) Sep 23-Oct 22

Always remember to choose the best driver—and don't leave witnesses—and you should not have to repeat that extended vacation in the near future.

Scorpio (the scorpion) Oct 23-Nov 21

Stay away from "friends" and "doctors" who pretend to be concerned with your troubles because, as the voices told you in that dream, it's only a trick. A sharpened file can be as useful as a store-bought shank. 2 and 88 should make you especially nervous.

Sagittarius (the archer) Nov 22-Dec 21

Fee Fi Fo Fum! You always know where they come from! Keep your wits sharp—and don't get distracted by promises of health or money this month—and all should work out fine.
