HOROSCOPE

(continued from page 6)
make your approach, but don't look over-eager. Six and forty-seven are numbers to avoid.

Leo (the lion) Jul 23-Aug 22
Eating a blackbird could bring you strength you never dreamed of, but cooking it could dim the effect. "L" and "W" have been talking behind your back, so be sure and make few mistakes.

Virgo (the virgin) Aug 23-Sep 22
That new band you have been listening to really IS talking to you via their lyrics. No matter how crazy it seems, they would not lead you wrong. Do as instructed and your life will be worth living.

Libra (the scales) Sep 23-Oct 22
Work Release can lead to a healthy new romance, so remember to take plenty of breaks. And if anyone catches your eye try to make polite conversation. Steer clear of dairy products and high-profile escape attempts this month.

Scorpio (the scorpion) Oct 23-Nov 21
What breathes heavily and tickles the back of your neck? Could be a new cellmate or co-worker, so be alert but docile.

Sagittarius (the archer) Nov 22-Dec 21
A free-for-all in a local haunt could bring unwanted attention, so keep your work well under wraps until after the 14th. A man with a cane would do to follow.
