**A PEACHY IDEA**

The U.S. Agriculture Dept. would have all farmers and gardeners believe they can't grow anything unless it is sprayed and fertilized with chemicals. That is not true.

For 10 years I tried to fight garden pests with these so-called wonder sprays. I got no results. Last May, I started to cut down my peach trees because they were dying from peach leaf curl.

Harriet Kennedy, leader of the "Organic Garden Club" of Tacoma, which has been fighting against poison sprays and chemicals, suggested I use her fertilizer, "Harvest Sprite." I did and now have the best-looking peach trees in Pierce County.

**ECCENTRIC TANTRUMS The Newtown Tragedy**

The recent horror in Newtown, CT, has prompted us to produce a special Eccentric Tantrum this month. Two intellectual giants of the *Police Gazette*—Editor and Proprietor William A. Mays and Poetry Editor Ivan L. Fail—bring us their formidable perspectives on the issue. See the special section beginning on page 7.

**100% AMERICAN CLUB**

My friends and I agree with reader Bob E. Rice of Dallas, Texas, who suggested recently that the Government deport all known Reds. Rice should start a "100% American Club," with members contributing \$1 each to cover the cost of literature and new enrollments. Every member would be given a card bearing the words, "I Am a 100% American."

**BETTER RED THAN AMERICAN?**

Since I am Canadian, I do not expect you to print this letter, but it would be only fair to give me a voice. I wonder why people are disgusted with or afraid of Communists? To me, their way of life seems preferable. Certainly, it could be no worse, especially in view of the way your Southern Negroes are treated.

And another thing—I'm amazed that your country found it necessary to cut the budget of the Food and Drug Administration while allotting huge sums for rockets and missiles. I'd rather be conquered
